Compaq PC Card Solutions List

Premier PC Cards

Premier PC Cards are a select group of PC Cards chosen by Compaq based on customer requirements. These PC Cards comprise the first tier. Compaq and these vendors have formed Technical Support Alliances to offer seamless customer support to Compaq customers. Our objective in forming these alliances is to ***jointly*** qualify these PC Cards for use on all Compaq PCs in multiple environments. Premier PC Cards represent Compaq's highest quality standards and can be identified by the unique Compaq PC Card Solution logo on PC Card boxes and in advertisements.

Standard PC Cards

In comparison, **Standard PC Cards** compose the second tier. These PC Cards are vendor tested and qualified at the Compaq PC Card Labs located in Houston, Texas, and Munich, Germany, using Compaq specifications. Standard PC Cards continue to play an important role in the Compaq PC Card Solutions Program by offering additional PC Card solutions to Compaq customers.

Premier PC Cards

Premier PC Cards are jointly qualified by Compaq and the PC Card vendor to offer seamless customer support to Compaq customers.

Contact the PC Card vendor for distribution information and latest country approvals.
